

Street Wardens

Middlesbrough Street Wardens provide a service to 13 areas in Middlesbrough. We currently have 64 wardens, which include Home Base Wardens as well as a Rapid Response Team that supports other teams when required.

We have a dedicated Town Centre Team to ensure residents as well as visitors to the town, have access to our services.

Our aim is to reduce crime and the fear of crime as well as improving the quality of life for all our residents.

We carry out high visibility patrols and deal with reports and incidents of Anti-Social Behaviour (ASB). We also arrange events and activities within our communities to bring about community cohesion. The wardens use their skills and abilities to communicate with youths causing ASB and help divert them into other activities. If you have a problem of any kind "speak to a warden" they may be able to help or point you in the right direction.
